

## Loan Interest Rate & Fees

Your **starting interest rate** will be between

3.750%

and

11.500%

After the starting rate is set, your rate will then vary with the market

### Your Starting Interest Rate (upon approval)

The starting interest rate you pay will be determined after you apply. It will be based on your credit history and other factors (presence of a cosigner, cosigner credit history, if applicable, and whether you are a graduate or an undergraduate). If approved, we will notify you of the rate you qualify for within the stated range.

### Your Interest Rate during the life of the loan

**Your rate is variable.** This means your rate could move lower or higher than the rates on this form. The variable rate is based upon the one-month LIBOR Rate (as published in the Wall Street Journal). For more information on this rate, see the reference notes.

The rate will vary after you are approved and there is no limit on the amount the interest rate can increase.

## Loan Fees

**Late Fee:** 5% of the monthly payment if not made on or before the 10th day after its due date.

- Your rate will be calculated each month by adding your margin (which can range from 3.500% to 11.250% depending upon your or your cosigner's credit history) to the current One-Month LIBOR Index.
